ASSEMBLY TOOLS EXPERTISE

Our assembly tools division at Elevated Industrial Solutions (formerly Air Center) partnered with Stanley Assembly Technologies as well as other precision tool companies to offer a wide variety of exclusive products. Our products include DC electric, battery, and pneumatic assembly tools, torque tubes, and custom-designed productivity solutions. Our tool repair division is an A2LA (1522.01) ISO 17025 Accredited Torque Calibration Laboratory. From preventive maintenance to emergency repairs, rely on us for service, too.

Trusted brands, product variety and availability, fantastic service, thorough repairs, and compliant certifications — it's why Elevated is your trusted assembly tools partner.

ABOUT ELEVATED

As Elevated, we've united companies to provide more solutions for industrial supplies, assembly tools, and coating and finishing equipment. If you're in South Carolina, most of Ohio, or southeastern Michigan, contact us for compressed air sales and service. Although our headquarters are in Denver, where we've been for 60+ years, we help companies like yours nationwide with warehouses across the country.
